

# NICOLAS RAMIREZ

*Fullstack Web Developer*

## OBJECTIVE

Tenacious, insightful when it comes to growing a project, and always open to new ideas as a self taught developer, I will push the team forward and show results quickly for your business.

Experience has given me not only technical bases, but also communication skills, both useful for application development and business concepts, that help to develop a healthy and sound work environment.

Scalability, quality, cloud and agile principles are at the front of my interest!
